

A declining certificate system

- smart usage of the existing system

Energikommisionen 2015-11-27

Charlotte Unger
Svensk Vindenergi (Swedish Wind Energy Association)

Changes until 2020

- get the system back on its feet

Problem

Imbalances

Overdevelopment

Over-/underdevelopment

Tied up capital

Solution

→ Yearly checkpoint

→ Stop at target realisation

→ Project database (SE+N)

→ More frequent cancellations

Changes after 2020

- enable a 2030-target for renewables

Problem

Solution

Cost development

→ Declining allocation period

Start year: 2021

Target year: 2030

End year: 2035

Allocation period: 15-5 år
